Dear Friends,

It's my favorite time of year! The holiday season always reminds me that the gift of family—both the ones we're born into and the ones we make for ourselves—is so special. That's why I'm especially thankful for my St. Jude family and friends like you who have helped give so much hope to the children of St. Jude throughout the years.

As you look through our St. Jude Giftbook, please remember that proceeds from every purchase help the children who are fighting for their lives. Treatments invented at St. Jude have helped push the overall childhood cancer survival rate from 20 percent to more than 80 percent since we opened the doors more than 50 years ago. And we won't stop until no child dies from cancer. Your support will help provide what every child deserves—the chance to live a long and healthy life.

Happy Holidays!
With love and gratitude from all of us at St. Jude,

Marlo

Marlo Thomas
National Outreach Director

meet

AARYN

Aaryn had been having pains in her legs that everyone thought were growing pains. Then she started spiking high but fleeting fevers. “We finally found a doctor that would do blood work on her,” recalled her mom, Jackie. Two days later, they were told they were going to St. Jude Children’s Research Hospital®, because Aaryn had acute lymphoblastic leukemia.

Aaryn will receive about two-and-a-half years of chemotherapy. She’s now able to receive much of it through an affiliate clinic near her home, but Aaryn, her mom and her twin sister, Andi, spent last Christmas in St. Jude housing. “We weren’t at home with family,” said Jackie, “but we had made a new family here.”

Andi, sister of
St. Jude patient
Aaryn

• PATIENT SPOTLIGHT •
meet
KYLER

Kyle is "all boy," says his mom. He loves hot dogs, riding his bike and playing with his dog, Smoky. At St. Jude, Kyle has been receiving treatment for rhabdomyosarcoma that includes radiation therapy and chemotherapy. His mom says, "It's kind of like what the commercial says, you don't have to focus on a bill, you just have to focus on your baby getting better. They are performing miracles every day for children. For children and their parents."

PATIENT SPOTLIGHT

meet JULIAN

Julian is a smart little boy who takes pride in being neat and tidy. He was first diagnosed with acute lymphoblastic leukemia four years ago. At St. Jude, he is receiving treatment for a recurrence. Julian spent last Christmas in isolation in the hospital, but he says it was not a bad experience. "There was no hope where we came from," said his mom. "Thanks to St. Jude and God, I have him here with me. From the moment I got here, it has been nothing but a blessing. It is a miracle to be here."

Julian is very popular with his St. Jude nurses and loves basketball, soccer and video games.

To learn more ways to help kids like Julian, visit stjude.org/giftsofdonation

A VERY SPECIAL

Thank You

TO OUR FRIENDS AT
HAMMERMILL® PAPER

International Paper, through its Hammermill brand, is committed to the lifesaving work of St. Jude. In addition to donating all paper used for our gift catalogs, they generously donated more than \$330,000 in 2019 to help fund our fight against childhood cancer and other life-threatening diseases.

In 2019, Hammermill helped bring patient artwork to life by featuring it on the covers of Hammermill's paper products.

St. Jude patient
Caleb,
 cancerous tumor

Give a Gift of donation

This season, it's your generosity that gives patients and their families hope for a healthy future.

St. Jude won't stop until no child dies from cancer. As we continue to provide the best care for our patients and their families, your donation could help cover the cost of vital treatments, life-enriching amenities and fun events for the kids of St. Jude.

We hope you'll join us in celebrating this wonderful season of joy, imagination and giving.

Because you give

Families never receive a bill from St. Jude for treatment, travel, housing or food—because all they should worry about is helping their child live. Treatments invented at St. Jude have helped push the overall childhood cancer survival rate from 20 percent to more than 80 percent. St. Jude is working to drive the overall survival rate for childhood cancer to 90 percent, and we won't stop until no child dies from cancer.

Scan this QR code with your smart device to see more ways to donate

No More Chemo Party

Item # 1907

You can help us throw memorable celebrations in honor of special milestones, like finishing chemotherapy treatment. We even gather around and sing the No More Chemo song to mark the occasion. Celebrating special milestones like this during their time at St. Jude helps patients and their families enjoy a piece of home during their time away.

Share of Platelet Transfusion

Item # 1912

Platelet counts are among the tests St. Jude doctors use to monitor a patient's health during their treatment. During chemotherapy, a patient's platelet count can drop to dangerously low levels. When this happens, platelet transfusions are essential. You can help us cover the cost of one platelet transfusion for a brave St. Jude patient.

Share of One Day of Oxygen

Item # 1913

You can help cover one full day of oxygen for a St. Jude patient. During their treatments, St. Jude patients may need oxygen to help their bodies function properly and aid in the healing process as they continue their battles with childhood cancer and other life-threatening diseases.

Red Wagon

Item # 1915

It's no secret that there are lots of red wagons traveling through the halls of St. Jude. In fact, these red wagons are the preferred mode of transportation for many of our younger patients. St. Jude patients will jump in a wagon to ride between appointments. We take care to clean them often to protect our patients from harmful bacteria and viruses during their treatments.

Share of Chemotherapy

Item # 1900

With their families beside them, St. Jude patients face their treatment plans bravely. Chemotherapy is often used to treat childhood cancers like leukemia and solid tumors. The advances made by St. Jude have helped increase the effectiveness of chemotherapy and reduce the side effects for young patients.

DEUCE

Delarian is named after his dad, but instead of calling him “Junior,” his family calls him “Deuce.” And Deuce dials it up to eleven from the word go. “He’s always the life of the party,” says his mom. “Whatever comes into his head, it comes out. No filter.”

The very night he was found to have acute lymphoblastic leukemia, Deuce was dancing in the exam room to music on his tablet. Next, he was rushed to St. Jude, where he will receive lifesaving chemotherapy for approximately two-and-a-half years, at no cost to his family—because families never receive a bill from St. Jude for treatment, travel, housing or food.

PATIENT SPOTLIGHT
meet
CARLOS

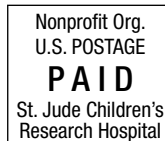

When Carlos was 4, he began to suffer from fevers and swollen glands. His mother took him to his pediatrician in the family's native El Salvador. There, bloodwork revealed Carlos suffered from acute lymphoblastic leukemia. At St. Jude, Carlos received two-and-a-half years of chemotherapy. He finished treatment in November of 1998, cancer free. Today, Carlos is 27 years old and works in the mailroom of the St. Jude fundraising office. "I have the ability to do my part to continue the beautiful mission of St. Jude, which is the place I owe my life to," says Carlos.

Thank You!
It's because of friends like you that families never receive a bill from St. Jude for treatment, travel, housing or food—because all they should worry about is helping their child live. From our family to yours, thank you for supporting St. Jude.

Families never receive a bill from St. Jude for treatment, travel, housing or food—because all a family should worry about is helping their child live.
