meet AIDEN

In a family of five boys, Aiden stands out. "We call him our angel child," said his mom. A straight-A student with a joyous giggle, he was referred to St. Jude Children's Research Hospital® for treatment of Hodgkin lymphoma.

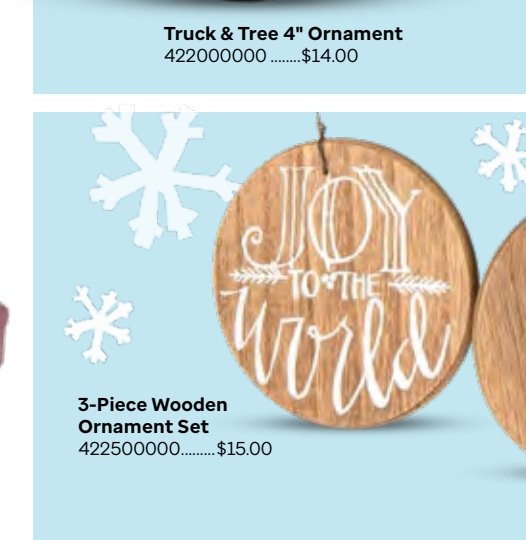

"With all he's had to go through, he's been very good," said his mom. For Aiden, that's just being true to form.

meet MARINA

Shortly before playful, affectionate Marina was found to have eye cancer, her father lost his leg in an accident. "We went from a two-income household—we have six children—to me working full time and him not working," said her mom. A referral to St. Jude Children's Research Hospital® made all the difference. "There's no way I could have afforded treatment otherwise."

meet **CALEB**

Caleb was 18 months old when his family learned he had a rare form of blood cancer called acute megakaryoblastic leukemia. In Canada, he underwent chemotherapy and a bone marrow transplant (BMT). When his cancer relapsed, Caleb was referred to St. Jude Children's Research Hospital®, where he underwent a second BMT. "We're so very thankful for St. Jude," says Caleb's mom.
